

FR/INSULATED PARKA AND BIB OVERALLS

FR Cotton Protection with Built-in Visibility Suited For All Of Your Cold Weather Needs.

Why pay more for an FR Aramid?

With Lakeland's Fyrban™ FR Cotton You Get:

- Similar FR Protection
- Better Arc Protection
- Breathes Better and Wicks Better
- And... It Costs Less!

Better Performance Than Other FR Cottons

- Higher Arc Rating
- More Wind Resistant
- NFPA 2112 Reflective Tape, Thread and Zippers
- Extra Reflective Tape for 360° Visibility

More Durable for Longer Wear Cycle

- Reinforced stitching prevents rips and tears
- Heavyweight 9 oz. FR Cotton provides abrasion resistance

Compare the workmanship, features, and attention to detail: you won't find an equal. And you have the assurance of Lakeland-made quality – we don't use contractors.

Style IPO8RT13 Jacket and IBO8RT13 Bib Pants Features

All seams on parka and bib overalls are reinforced for extra durability and wear.

Fully insulated stand up parka collar with snaps that accommodate an optional hood.

Parka features a heavy duty full length front zipper closure with two-way quick release zipper, storm flap over zipper.

Two oversized parka chest pockets with safety flaps, two oversized lower pockets with hook and loop flap closure, hand warmer area, one inside chest pocket

Knit wristlets within parka hemmed sleeves with hook and loop adjustable take-up straps.

Bi-swing pleated back on parka offers maximum expansion, while elastic back to minimize internal element exposure.

2" lime/silver/lime reflective triple trim for enhanced visibility, NFPA 2112 certified.

Overalls have durable bib straps feature non-metallic quick release clips.

Two angled overall chest pockets with hook and loop closures. Two slash hip pockets, 2 seat pockets, 2 out-seam thigh utility pockets located on the thighs with hammer loops. All pockets are reinforced for enhanced durability.

Leg zippers have full gussets for maximum expansion for ease of donning and doffing over boots/shoes. Security snap at bottom of cuff.
